

# TOWNSHIP OF SIOUX NARROWS - NESTOR FALLS

Moved by Steve Salvador Resolution No. 42 - 24  
 Seconded by Holly Chant Date May 7<sup>th</sup>, 2024

WHEREAS The Nuclear Waste Management Organization (NWMO) has been in the process of investigating potential sites for a deep geological repository for high-level nuclear waste from all of Canada's nuclear power reactors since 2010; and,

WHEREAS the NWMO project involves the transportation, processing, burial and abandonment of an estimated 100,000 tonnes of highly radioactive waste; and,

WHEREAS there are scientific and public concerns about the risks of radioactive exposures along the transportation route and in the region of and downstream from the repository site under both normal operating and accident conditions; and,

WHEREAS the roads infrastructure in Northwestern Ontario is already under strain from heavy truck and vehicle traffic and the NWMO project will add 2-3 trucks per day for more than fifty years thereby increasing the risks; and,

WHEREAS communities in Northern Ontario do not rely on nuclear power and should not be burdened with the risks of transportation, processing, burial and abandonment of the highly radioactive wastes the nuclear power reactors have produced.

THEREFORE, BE IT RESOLVED THAT the Council of the Township of Sioux Narrows – Nestor Falls urges the Nuclear Waste Management Organization to find storage solutions for nuclear waste in the vicinity of the reactor stations where the waste is and not pursue the transport of these radioactive wastes to Northern Ontario.
